Subject: RE: Deschutes - summary of 10/4 call

Perfect. I'll call you then. We can then determine if another call with other folks will be useful.
Thanks, Amy

Subject: RE: Deschutes - summary of 10/4 call

Hi Miranda,
Things seems quiet on the data requests. Can we touch base on timing of the approach and impacts of the data either before or after our Crooked Creek call tomorrow? My schedule is pretty free, so feel free to suggest a time.
Thanks, Amy

Thanks for the summary! The notes look good to me.

I have sent out requests for the three items under my name, and have not heard back yet. I will follow up with some phone calls if I don't hear back near the end of this week. Did you hear back from Thurston County yet?

Subject: Deschutes - summary of 10/4 call

Hi Miranda and Jayne,

Attached is a brief summary of our call last week on the additional data and information for the Deschutes TMDLs. The action items are also listed below. Please let me know if you have any suggested edits or comments on the summary.

Action Items

- Tetra Tech will prepare a summary of the call and distribute it to the team for comments.
- Tetra Tech will request data in a more usable format from Thurston County (EPA will be copied on the request).
- Tetra Tech will pursue permittee data from Ecology's Paris database.
- Miranda will ask the watershed group organizer to send a data request to the team. Goal is to obtain additional MS4 data.
- Miranda will request the additional data and information from Ecology; Tetra Tech will first review the data request bullets prepared by Miranda.
- Miranda will follow up with Leanne about a tribal contact.
- Amy will follow up the week of October 15 about the timing of the technical approach, which is dependent on additional data.

Thanks, Amy
